

**Our Maine and New Hampshire
Beaches and Coast**

BEACH MONITORING VOLUNTEERS THANK YOU!

to the hundreds of volunteers who monitor Maine's beaches with the **Southern Maine Beach Profile Monitoring Program** and the **Maine Healthy Beaches Program**.

Many of these outstanding volunteers have monitored the beaches for years, and some for well over a decade, to inform decisions about beach management. Financial support for beach profiling is also provided

MAINE

Healthy Beaches

by participating cities and towns. The 2016–2017 profiling data will be shared at the Beaches Conference July 14 at Wells High School. Without the dedicated support of these volunteers and their communities, these monitoring programs would not be possible. **Thank you to all.**
